

ALUWOOD
FLOORBOARDS

Say Alu... ...TO A NEW REVOLUTION IN FLOORING

Experience the future of luxury flooring with Aluwood Floorboards Ltd. Our innovative new design features internal aluminium floorboards that perfectly mimic the aesthetics of traditional materials. Available in timber, stone and marble finishes resulting in a durable, eco-friendly alternative.

Lightweight & Speedy Installation: Being over 60% lighter than solid floorboards at only 6kg/m², these floorboards are extremely easy and quick to install with seamless tongue and groove finish, effectively reducing installation costs.

Durable & Sustainable: Offers greater durability than natural wood, with benefits such as termite resistance, slip resistance, non-combustibility, and no harmful VOC's. They provide a safe and eco-friendly flooring solution that lasts over 50 years.

THE FUTURE OF ECO-FRIENDLY FLOORING

Non-combustible floorboard with removable, B1 fire rated polyurethane insulation

Suitable for all types of commercial and residential buildings.

Two Sizes available:

1500mmL x 150mmW - 15mmD

3000mmL x 150mmW - 15mmD

(Available on request, minimum order applies)

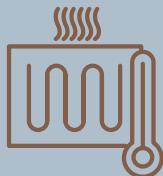

Energy Efficient:

Highly efficient at retaining heat and cooling to an extremely high standard.

Non-Combustible:

IMO Fire tested MSC 307(88). Complies with IMO FTPC Part 5: Fire Test for surface flammability and IMO FTPC Part 2: Smoke & Toxicity Test.

Underfloor Heating:

Compatible with the use of encapsulated underfloor electric mats and all water based underfloor heating systems.

No Maintenance:

No sanding, staining or oiling required – ever!

Quick & easy installation:

Seamless tongue & groove finish with a supplied end clip to secure.

Lightweight:

Extremely lightweight at only 6kg/m².

Aluwood Floorboards offer an extensive range of benefits and features, making them an outstanding choice for any project. They provide a sustainable and eco-friendly alternative to traditional flooring, combining practicality with style.

Production with the use of green aluminium is available on request.

With 35 authentic colours to choose from, Aluwood Floorboards beautifully mimic the natural aesthetic of traditional materials while delivering superior performance. Their durability, easy maintenance, and compatibility with selective underfloor heating and cooling systems ensure that they meet the demands of any environment, enhancing your space with a sophisticated and environmentally conscious solution.

Available in 35 stylish and contemporary colours. Bespoke finishes are available on request.

Timber Finish

21 authentic timber finishes:

Thermal transfer is printed and cured to produce a beautiful authentic finish.

Eco-Friendly:

High value 100% recyclable asset making it a fantastic green alternative.

10 year Warranty:

Covered for manufacturing defects and discolouring for up to 10 years, long lifetime of 50+ years.

Versatile:

Suitable for internal use in residential and commercial projects as well as all marine vessels, making them extremely versatile.

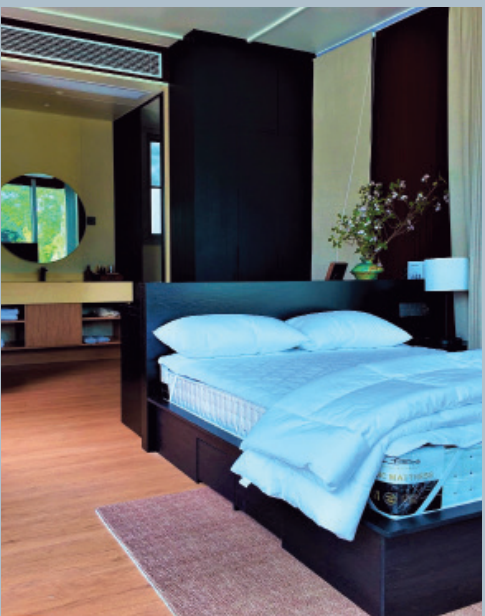

Sustainable:

No logging or harmful VOC's making them suitable for a wide range of uses.

Insulated:

Designed with an integrated PU insulation providing thermal and soundproofing qualities.
